TD N°05 JAVASCRIPT

Exercise 1 :

```javascript
1.  a = "1";
2.  b = "2";
3.  c = a + b;
4.
5.  document.writeln("Type et valeur des variables:");
6.  document.writeln("----------------------------");
7.  document.writeln(" a: ("+typeof(a)+") "+a);
8.  document.writeln(" b: ("+typeof(b)+") "+b);
9.  document.writeln(" c: ("+typeof(c)+") "+c);
10.
11. document.writeln("");
12.
13. a = parseInt(a);
14. b = parseInt(b);
15. c = a + b;
16.
17. document.writeln("Type et valeur des variables:");
18. document.writeln("----------------------------");
19. document.writeln(" a: ("+typeof(a)+") "+a);
20. document.writeln(" b: ("+typeof(b)+") "+b);
21. document.writeln(" c: ("+typeof(c)+") "+c);
```

Exercise 2 :

```javascript
1.  function validateForm() {
2.  if(document.getElementById('myField').value == '') {
3.  document.getElementById('myFieldError').innerHTML = 'Le champ ne peut être
    vide';
4.  return false;
5.  } else {
6.  document.getElementById('myFieldError').innerHTML = '';
7.  alert('Le formulaire peut être envoyé');
8.  return true;
9.  }
10. }
```

Exercise 3:

```
1.  document.writeln('<form id="myForm">');
2.  document.writeln('<div>');
3.  document.writeln('<label for="myField">Champ :</label>');
4.  document.writeln('<input type="text" id="myField" size="60">');
5.  document.writeln('</div>');
6.  document.writeln('</form>');
7.
8.  document.getElementById('myField').value="Vous avez réussi votre exercice";
```
